Learning Progressions: Maps to Personalized Teaching

Bio: Cindy Kuhrasch has had the opportunity to teach Health and Physical education to students in grades K-12, and undergraduate students as well. With two teachers facilitating in the course, we are able to offer specialized classes such as yoga or CrossFit or visits to GoodLife or

other local gyms. Miller posits further that filtering through an authentic task creates a need to know in students.

Onsite Professional Development Workshops from Physical Education Central

She is an active committee member of professional organizations such as National Science Teachers Association and the North Carolina Science Leadership Association.

How Personalized Learning is Breaking the “GYM” Class Stereotype

Instruct students to screenshot their choice and type in their corrections. Example of Google Doc with student choice of remediation options.

Teaching for Tomorrow: physical education

What a task to ask of high school students, and they had a lot of questions! The specimens in the Human Anatomy Laboratory have come from people who have graciously donated their bodies for the betterment of science and education and thus granted us an immeasurable privilege.

How to implement personalized learning in the classroom

. Before the students were introduced to the goals of the project, they spent a lesson brainstorming various considerations needed when designing a new gymnasium for the school. If anyone would be willing to share, I would certainly appreciate it.
