On the basis of this he or she has to fill up a blank in the given sentence. In the end, then, psychological testing can, in some ways, be both valid and reliable; yet, in other ways, it often does not achieve much more than an impressionistic evaluation of a person. Although its name was later changed to the Wechsler Adult Intelligence Scale WAIS and has been revised several times, the aims of the test remain virtually unchanged since its inception Boake, 2002.

## PSYCHOLOGICAL TESTS AND MEASUREMENTS

In many ways, psychological testing and assessment are similar to medical tests. Study Professional Reviews of the Assessment Materials If you have done your homework as just described, you will be in a good position to locate assessments and to begin reviewing them.

### Testing and Assessment

In the following paragraphs, we will explore the how intelligence tests were developed and the history of their use.
