## North and South in the ancient Central Andes: Contextualizing the archaeological record with evidence from linguistics and molecular anthropology

Garden City, New York: The Natural History Press. How museums work as classifiers of knowledge, how they represent culture, as commodity and experience, will also form part of the course. Take a range of courses in language, literature, writing, and teaching English.

## JSTOR: Viewing Subject: Anthropology

Topics, conceptual approaches, and regional specialization will vary. Three interrelated aspects of environmental archaeology are considered: 1 general approaches to paleoenvironmental reconstruction, employing various biological and geological indicators; 2 the analysis of human plant and animal food remains; and 3 the geological and other processes that are responsible for the formation of archaeological deposits. Additional Information: Arts Sci Gen Ed: Distribution-Social Sciences ANTH 4630 3 Nomadic Peoples of East Africa Examines the issues of current concern in the study of East African pastoral peoples.
