Forgotten Diseases Research Foundation

Causes Klinefelter syndrome occurs as a result of a random error that causes a male to be born with an extra sex chromosome. The causes of Aldosteronism vary but it is most often the results of benign tumors on the adrenal glands.

Klinefelter syndrome

Rochester NY : University of Rochester Medical Center; c2019.

And of course many prayers for a miracle or the grace and strength to do what was best for the baby.

Klinefelter syndrome

Some people with Klinefelter syndrome have the extra X chromosome in only some of their cells; these people are said to have Klinefelter

syndrome. An XX egg is produced, which when fertilized with a Y sperm, yields an XXY offspring.

Creatine Kinase: MedlinePlus Medical Test

. These neurocognitive abnormalities are most likely due to the presence of the extra X chromosome, as indicated by studies carried out on animal models carrying an extra X chromosome. At their 5 month check up an ultrasound indicated their baby had Down Syndrome.
