## North/South Interconnector: NIE Briefing

It is very important for us to understand — Mr Flanagan: Do not be scared to go into technical detail. Connecting through a small-scale system does not achieve that. Intensive energy users can obtain up to 80% discounts on the levy.

## Electricity Trading via Interconnectors up for Discussion

The Chairperson: Where are they, Robert? Have the Planning Appeals Commission or the Planning Service, for that matter, given you any indication of when this will be resolved — either that the public inquiry will commence, the PAC will come to a verdict, or you will actually have permission or refusal of a planning application? It has been very helpful. Following this review, in October 2019 the Commission confirmed that GB's CM scheme complies with EU State aid rules, and that the scheme is necessary to guarantee security of electricity supply until at least December 2024.

## Electricity Trading via Interconnectors up for Discussion

They thus avoid grid distribution costs but their customers need to be near the generation. Most Member States still have problems with early school leaving, low participation in lifelong learning by older workers and the low-skilled and poor skill achievement by migrants; ii providing sustainable funding for lifelong learning strategies that can ensure high quality, efficient and equitable education and training; innovative learning partnerships have an important role to play here; iii accelerating reform in higher education and in the development of business-university partnerships, so that all sectors of education and training play their full role in promoting creativity and innovation. So, what are you going to do? The third city is Londonderry in the North of NI with 105,000 inhabitants.

## Energy Policies of IEA Countries: Ireland Review

TNUoS tariffs are calculated in accordance with the methodology in Part IIB of Section 3 of the CUSC and are published on an annual basis every January 1st, taking effect on April 1st of the same year. EU Legislative Package In November 2016 the European Commission published the draft Clean Energy for All Europeans Package, a legislative package of eight acts designed to cover the electricity market from 2021 to 2030.

## **A GUIDE TO. Connecting Renewable and CHP Electricity Generators to the Electricity Network**

In 2001, gas imported from the UK supplied 82% of Irish demand. Participants met once a week in a local learning centre and had to submit project work related to real issues arising in their companies. The connection offer process involves agreements between the developer and the system operator.

### **Energy Policies of IEA Countries: Ireland Review**

The Clerk has made a note of Mrs Overend's question, which we will forward to you. While formal communication on these programmes is channelled through UK representatives, working-level communication also exists between the Commission services and the NI authorities, including the Office of the NI Executive in Brussels.
