Not all examples of utopian life were set in the theory. Two characters in particular try to reject this: John and Hemholtz.

Utopies et dystopies

Since the dawn of time, humankind has not only strived for a better society in political and philosophical terms, but also dreamt, drawn and endeavoured to design the best one for it to inhabit—an idealised world for harmonious living. The of the 1960s in the United States often represented an attempt to greatly improve the way humans live together in communities. Some of the questions were pretty good, and led to some further lively discussion.
