Humanization in health care: All keys

The film tells the story of, A man who was hospitalized in a mental health unit and after seeing how he was treated in this service, he requested to leave voluntarily and decided to study the medical career.

In the Literature, Hastings Center Report

To make the specialty of Intensive Care Medicine and the work in the ICU known. This ambitious project was designed to implicate all the professionals in the ICU—physicians, nurses and assistant staff, with their exceptional commitment qualities. .

In the Literature, Hastings Center Report

Far from making us weaker, these should be increasingly valued qualities. A pending issue is the organization of similar meets with the families of patients that died in the Unit.

Humanization in healthcare arises from the need for a holistic approach to illness

It is to take control of the situation and the context in which it works and also respond to it.

Humanising nursing care

The dialog offered within this website is open, and intended to stimulate discussion amongst all that are interested. We likewise resumed another

survey that had already been developed to know the opinion of the relatives of patients admitted to the ICU. In this regard, a series of biological benefits have been described, such as a decrease in cortisol or prolactin levels, allowing the reduction of sedatives in mechanically ventilated patients enrolled in a music therapy intervention.

Humanising nursing care

It is very important to be sincere in the task of care.
