Growing Great Garlic

Uzbek the Bulbarian describes how garlic migrated from its obscure existence on the barren steppes of Central Asia to conquer the culinary world around the globe. Although it is a labor intensive crop, it is easy to grow and unlike most vegetables it stores well.

We give our garlic a range of extra nutrients, from diluted seaweed fertilizer tea to worm juice, at a rate of about one application a month. Excessive rain or irrigation can encourage growth, and it is difficult to control in wet weather. Sometimes being a garlic farmer is a tough row to hoe! We translate science of everyday living for farmers, families and communities to foster a healthy and prosperous Georgia.
