Supporting Children's Transition to an Early Childhood Setting

The key person is also responsible for completing regular observations and early years development tracking, therefore the key person needs to be able to spend time getting to know the child.

Supporting Children's Transition to an Early Childhood Setting

Some providers might be happy to send you a text update, or for you to phone if you need particular reassurance. Ask them to share their feelings with you.

Helping children to settle into nursery

Create a meaningful conversation with them after their day at a service. Try and get one a couple of weeks before your child starts if you can, and make it part of the bedtime story routine. Studies show that early childhood participation can lead to positive social and academic skills, which set children up for a lifetime of learning Tolley, 2009.

Helping children to settle into nursery

Children are actively and passively learning from the world around them and are instinctively tuned into our voices. It can help to think about the positives for your child, for example all the mental stimulation they gain, the interaction with other children and their developmental progress.
