## The Drakensberg Mountains, South Africa

The most commonly seen animals in the mountains are Cape vultures and baboons. The entire eastern portion of the Great Escarpment see the accompanying map constitutes the Drakensberg. The Drakensberg has a few famous peaks that are favourites to photograph and summit.

## Best time to hike the Drakensberg Mountains

The simulated weather data have a spatial resolution of approximately 30 km and may not reproduce all local weather effects, such as thunderstorms, local winds, or tornadoes. The least humid month is August 40.

## Drakensberg

From the high plateau on the Lesotho side of the international border soaring basalt cliffs and buttresses mark the sheer, jagged edge of the escarpment which drops precipitously through dramatic cutbacks and, far below, golden sandstone ramparts. Being in the Southern Hemisphere, it obviously has reversed seasons in comparison with Europe and North America.

## DRAKENSBERG, KwaZulu Natal

And there you have it. It is important for visitors to invest in the economies of the local communities to the people living in the mountains, because it affords unto them economic independence, and ultimately encourages education and community development.

## Climate Drakensberg

Litter and pollution have the potential to corrupt the landscape, and should therefore be kept to an absolute minimum.
