But can not find any authoritative reference. However, the quantity of projectiles needed for such a purpose could not be transported on an airborne operation, and a Junkers JU-52 German troop carrier aircraft could carry and drop only four projectiles at a time. Crete had great strategic importance in the.

Kreta

The Davis gun was purchased by the British and experiments undertaken to see if it could be used as an anti-submarine weapon but the war ended before the trials were completed. That is another question answered now! Bridges along the roads could not take vehicles that weighed more than seven tons. At the last moment, , a New Zealander who had fought at both and on the Somme, was placed in command on Crete on 30 April and discovered that virtually nothing had been done to solidify the defences on Crete since the autumn.
