## Guidelines Pocket Guides

Utilize these communication tools to help clearly and succinctly communicate a wide range of critical information to the hospital, as well as provide resident's medical documents and belongings to emergency room staff during acute care transfers.

## Hospital Discharge Planning: A Guide for Families and Caregivers

Download for free from the INTERACT website.

## The COPD Pocket Consultant Guide

Hopkins has successfully provided HaH adoption technical assistance to several health systems.

## CMS announces Acute Hospital Care At Home program

For more information, This flow chart of the INTERACT Program guides users through the process and tools to be used in the INTERACT program. This worksheet is designed to help nurses, primary care providers and pharmacists develop accurate and safe medication orders at the time of admission for new admissions from the hospital or residents returning from the hospital. Download for free from the INTERACT website.
