## Meet the narwhal, 'unicorn of the sea'

We are, already, putting our industrial drones — which are adapted to operate at extremely low temperatures — to use, and testing other developments that further Arctic exploration is going to be impossible without. Partners provides funding as a member of The Conversation US. Narwhals live in the Arctic Ocean year-round, rarely crossing the 70°N latitude line.

## Narwhal: Unicorn of the sea

Mixed groups of narwhal and beluga whales were also encountered in the Russian Arctic for the first time, confirming the hypothesis that these creatures are concomitant can live happily alongside each other. Narwhals only live near the Arctic Circle—in the icy waters spanning Northern Canada, Greenland and Russia—where changes in climate and sea ice pose a mounting challenge to their survival.

## Narwhal: Unicorn of the sea

Affected by climate change Like , narwhals depend on and are directly impacted by rapid climate change —studies have shown that they are one of the species most vulnerable to the ecological effects of climate change because of increased predation by killer whales, changes to their prey base, and likely increased risks of entrapment in unpredictable ice conditions.

## Unicorn of the Sea

Charitable Registration Number 119304954 RR 0001. And we put our technological capabilities to good use here. UNICORN OF THE SEA Long sought for its ivory tusk-once believed to be the horn of the fabled unicorn--the narwhal is a mysterious creature.

## Narwhal Animal Facts

The purpose of the ivory tooth has boggled scientists for centuries and is still unknown. Up to 2 per cent of females have an erupted tusk. Audiences will learn what the Inuit have learned and how environmental changes are affecting the way of life for both narwhal and Inuit.

### **The unicorn of the sea: Ten facts about narwhals**

The Narwhal tusk is a modified tooth in the upper left side of the jaw. Narwhal Song Reinforce learning about the narwhal with this fun song to use during circle time. FOOD TO DIVE FOR Narwhals participate in oceanic dives to forage for food.
