Single-base mapping of m6A by an antibody-independent method. Bond Merchant of Venice The background of Bond is set in the Song Dynasty of medieval China, and the conflict between Jews and Christians becomes one between Tazis Arabs, Muslims and Cathayans. Base-resolution maps of 5-formylcytosine and 5-carboxylcytosine reveal genome-wide DNA demethylation dynamics.

The Legend of Xiao Chuo (2020)

The name of the state of Lu was later used as name of princedom. This interference of the kings of Zhou into the question of succession in the state of Lu was also the last great activity of the house of Zhou.
