## World Flags

This book reads as though it was written in the middle of the night by a smug and overconfident high school student on a deadline, simultaneously cherry-picking factoids from Wikipedia and the CIA World Factbook while augmenting the final word count with insipid opinions and weak humor. ## Worth Dying For: The Power and Politics of Flags by Tim Marshall

Both should be put to death without further delay. These areas appear to be based more on Tim's opinions rather than facts, contain inconsistencies and stereotypes, and make the book fall short of a good read.
