Wakefield

A large number of research studies have been conducted to assess the safety of the MMR vaccine, and none of them has found a link between the vaccine and autism. In the 1881 census, James is with his parents, George Longbotham, aged 35 and his wife Sarah, also 35. NCES results indicated that the risk was very low, and this data lent support to a national pro-immunization campaign.

This historian's drawings capture a forgotten Wakefield demolished in the 1960s

We are dissidents, they cry, persecuted by the establishment, by the elite, by them. A few years later, Wakefield alleged the vaccine was not properly tested before being put into use.

History of Anti

If that refrain sounds familiar, it is because it echoes the self-aggrandising whinnies of the anti-vaxxers. As Zio Chapel was commonly called Bruce's chapel so Salem Chapel was spoken of as Rayson's chapel.

The Index of subjects of its History and by J.W. Walker

Yet, opposition to vaccination has existed as long as vaccination itself indeed, the pre-vaccination practice of variolation came under criticism as well: see our for details. For some parents, the smallpox vaccination itself induced fear and protest.
