## SICE

As such, countries, in their effort to meet their stated goal of increasing welfare through trade, could gain real benefits from taking into account the gender differences existing in their countries, when formulating their strategies for maximizing their benefits from free trade. Context An historic shift of geopolitical and economic power from the Atlantic to the Pacific is underway, and as a multi-node world emerges, new and established powers, as well as non-state actors, are seeking to recast the international system to their benefit. It is a prominent member of the G20 and increasing trade, development, and political cooperation with Asian, Middle Eastern and African states.
