Revisions to estimates derived from other sources are usually minor and are commented on in the statistical bulletin if this is not the case. Figure 5 shows public sector employment as a percentage of all people in employment for the last 5 years.

Official statistics in a "post truth" era

The revised data itself may be subject to sampling or other sources of error. Collection of the monthly Household Travel Survey has been suspended. England spent £554 per head and Scotland £466.

UN Sustainable Development Goals: How does climate change jeopardise the chances of a sustainable future?

The Committee also agreed that the Implementation Guide should be showcased at the Sixth High Level Forum on UN-GGIM, to be held in the United Kingdom of Great Britain and Northern Ireland, in April 2020.

WTO

Figure 8 shows changes in the number of jobs by industrial sector between March 2016 and March 2017. Tip: When modelling the activity, picking out the most obvious example from the spreadsheet and prompting students to look harder, dig deeper, can be motivating.
