## The Universe in Verse

NOTE: For various artistic, legal, and technical reasons, the broadcast will not be available in its entirety for later viewing — just as a physical gathering only exists for as long as we are gathered — but individual readings will be released incrementally on Brain Pickings. All around us, nature stands as a selective laboratory log of only the successes in the series of experiments we call evolution — every creature alive today, from the blooming magnolias to the pathogen-carrying bat, is alive because its progenitors have survived myriad cataclysms, adapted to myriad unforeseen challenges, learned to live in unimagined worlds. Four days later, I was to host another event across the landmass — a celebration of the 50th anniversary of Earth Day and — on the steps of the New York Public Library, where the inaugural Earth Day took place in 1970.
