## How Long Does Anesthesia for Cats Last?

Some vets do not use an injectable induction agent, but instead use an inhaled anaesthetic both to induce unconsciousness and to provide general anaesthesia. The general rule of thumb is to stabilize before you anesthetize.

## How Long Does Anesthesia for Cats Last?

You can generally expect your cat will be a little unsteady on his feet for a while, groggy, maybe stumble and fall, and may be grouchy and do some growling or hissing to tell you he wants to be left alone. This precaution will help your veterinarian determine the best anesthetic or combination of anesthetics for your cat. Even when cats trust their humans, they often resist even basic brushing.

## How Long Does Anesthesia for Cats Last?

It also has anti-seizure effects and includes drugs like midazolam and diazepam. This class of drugs can cause an excitatory effect in some patients rarely. If you wish to link to this site, please feel free to do so.

## Tanya's Comprehensive Guide to Feline Chronic Kidney Disease

An IV catheterization is placed, generally in either the cephalic and saphenous veins.
