Present subjunctive By far the most common form of subjunctive, the Spanish present subjunctive expresses the idea of uncertainty or unknown-ness in all present or future situations.

LanguageTool

In -er verbs whose stem ends with a vowel, the i of the -iendo ending is replaced by y: e. Some speakers, by way of i.

Spanish Grammar

In the third, possibility is not certainty, but rather a conjecture, and the last expresses clear doubt. This is an excellent way to see how much they can come up with proper questions.

Style issues get a blue marker: It's 5 P.

An Overview of Spanish Tenses: What They Mean and When to Use Them

Infinitives All regular verbs have an infinitive form that ends in either -ar, -er or -ir. ¿ Vosotros habláis inglés? But grammar can teach you something in minutes that might take days to figure out by immersion alone. You probably know by now that verbs are a challenging subject in Spanish.
