**Exploring cancer survivors' attitudes, perceptions, and concerns about using medical cannabis for symptom and side effect management: A qualitative focus group study**

Key Takeaway Promoting a positive work attitude will increase your overall effectiveness as a manager. They are also less likely to retaliate when other people treat them unfairly.

**Perception and attitude of pastoralists on the use and conservation of rangeland resources in Afar Region, Ethiopia**

Similarly, others Feye ; Abebe et al. Therefore, the objective of the study was i to understand the perceptions and attitude of Afar pastoralists towards rangeland resource use and conservation practices and ii to assess the impact of development intervention on traditional rangeland resource use and conservation practices.

**Risk Perceptions and Risk Characteristics**

This is not surprising because people who are younger often have fewer responsibilities such as supporting a household or having dependents.

**How Personal Perceptions Influence Human Resource Management Decisions**

You may have high self-efficacy in being successful academically, but low self-efficacy in relation to your ability to fix your car.

**Attitude: Definition, Nature and Characteristics (Explained)**

A management style that consistently generates a negative perception from employees may result in that manager being seen in an equally negative light, impacting the intrapersonal relations between staff members.

**Physicians' perceptions and attitudes regarding inappropriate admissions and resource allocation in the intensive care setting**

In this essay, we will discuss three aspects of HR management activities, namely employee selection, performance appraisals and employees promotions, and give examples of how discriminations are at times driven by an HR individual? Respondents also reported that the size of farm lands under commercial crop cultivation and number of private and government sectors involved in such activities were rapidly increased. Discouraging those assumptions from being paraded as fact can help ease some misconceptions that develop in the workplace. Extensive observations and continuous herding practices have helped pastoralists to acquire a detailed knowledge of their environment Angassa et al.

### **A Human Resource Management Blog: Attitude and organizational success**

Organizational commitment—turnover relationship across occupational groups: A meta-analysis.

### **Risk Perceptions and Risk Characteristics**

This finding is in consonance with Omekwu 2002 affirmation that a positive functional perception of relevant information for decision analysis appears to be associated positively with variables such as knowledge and innovativeness. The first impressions we form about people tend to have a lasting effect. Risk perception is important in health and risk communication because it determines which hazards people care about and how they deal with them.
