Inspired by relational ideas of power, the analysis enhances our understanding of the factors that were decisive for social interaction in that period. A large part of the book addresses the language employed in the chronicles by highlighting the semantics of key terms such as favor, loyalty or obedience. As the first people to convert officially to Christianity, they commissioned and produced some of the most extraordinary religious objects of the Middle Ages.

Yet the universal popularity of poets such as Sa'di and Hâfez of Shiraz and the ultimate rise of Iran to claim the centre of Persian writing and scholarship led to a relative neglect of the Persianate periphery until recently. Moreover, it gives fresh impulses to the debate on concepts of power and authority among historians and social scientists.

Relying on a rich corpus of Bukharan primary sources, the study is a work of fundamental research that combines established traditions of social historical research and approaches borrowed from the social sciences. Those concepts are manifest in practices like patronage, mediation and gift exchange.
