### New Jersey Pinelands National Reserve (U.S. National Park Service)

Several of these vernal ponds support the pine barrens treefrog. There is a sparse but diverse herbaceous vegetation layer, and thick hummocks and mats of Sphagnum mosses.

### The Pinelander: Newsletter of the New Jersey Pinelands Commission, Winter 2008

Spotted turtle *Clemmys guttata* are an abundant, but possibly declining, species in these habitats.

### The Pinelander: Newsletter of the New Jersey Pinelands Commission, Winter 2008

The presence of pine barrens in this climate results from the success of low-nutrient and fire-adapted species in invading and maintaining themselves competitively over the last several thousand years on the sandy, well-drained, nutrient-poor soils. These sites are listed here and shown on the maps but are not discussed in the narrative. Institute for Environmental Studies, Ramapo College, Mahwah, NJ.

### New Jersey Pinelands

A few white cedar swamps in the New York Bight drainage also support this species. Firstech Environmental personnel use their experience with the Pinelands application process to rapidly move the process through the governing bodies. Thirty-nine miles of the Great Egg Harbor River and 89 miles of its tributaries were designated as National Wild and Scenic Rivers in recognition of their relatively pristine condition.

### New Jersey State Atlas :: Pinelands Management Areas & Ecological Integrity Assessment

Republican Senator and Democrat introduced a third bill that was somewhat of a compromise and incorporated ideas from Governor Byrne.

### New Jersey State Atlas :: Pinelands Management Areas & Ecological Integrity Assessment

Avian community structure along a successional gradient in the pine barrens. To an untrained eye, it may look like there were fifty to sixty trucks that were out here.
