### Facing the Courts: Conference Proceedings

Private colleges and universities are free, by contrast, to set their own rules and to formulate their own disciplinary procedures within very wide guidelines and boundaries established by state laws. Nevertheless, this updated Guide would be grossly incomplete if it did not explain the relevant issues and legal concepts that govern sexual harassment and sexual assault adjudication on campus. Within the administrative sector, decisions tend to be made within some combination of senior management of the university and the university counsel.

These results imply that stereotype threat could be a possible source of bias in standardized tests -- a bias that comes not from the actual content of the items, but from differences between blacks and whites in the threat posed by societal stereotypes. We begin with a very bold claim: all students in colleges and law schools learn better in a racially diverse environment and are better prepared to contribute to democratic society once they leave. Prior to the 1900s, admissions testing was very important but individual colleges and universities conducted the tests.

UC Berkeley also excessively relies on the SAT, a test in which success correlates with SES and that has a disproportionately negative impact on minority students. It is a threat to all black people involved because some believe they are being judged in discrimination; it is also a threat because we have some level of civic discourse in this and honesty threatens to rip this apart. I see the social science component as one piece.
