Edu-Ware, Level-10, and Sir-Tech had three each. An Apple II+ The Apple II was first sold on June 10, 1977. This gives 80-column text, but will not work with software that requires 128K of RAM or uses the double-hi-res or double-low-res video modes.

Apple II series

However, to make a working computer, users still had to add a case, power supply, keyboard, and display.

Documentation Library » spaceneb.us.to

Cassette storage may have been inexpensive, but it was also slow and unreliable.

Apple II » Mac History

The lists started with the October 1980 issue and included a list of the 30 bestselling software titles overall and several top five and top ten lists of the bestselling games in various categories home, hobby, business, adventure games etc.

Apple II Eprom Writer

Ham radio operators used the cassette input to receive slow scan TV single frame images.

Getting started with the Apple II

Once they started hiring people for projects like Time Zone, Ken took on more of a business role though I believe he still programmed.
