Chapter 6: Marx's Critique of Religion as Challenge to Christianity

But it is only in and through our poor, weak, mortal bodies that we truly worship and enter into communion with Christ in his Body and Blood. This is precisely what Matthew 21:21 is dictating. Jesus is our model for embodied worship.

Gnosticism Still a Challenge to Christianity

Many going through a divorce often stay away from the church when the church should be the first place that helps them recover and get life back on track. One of the biggest challenges for theologically conservative churches will be to maintain a consistent biblical ethic on these matters, speaking in truth and love about for example the witness of Scripture on divorce as much as the witness of Scripture on homosexuality. The person is so distracted and dissociated he receives the sacrament of the Body and Blood of Christ as a piece of bread, rather than as a living Person.

My Challenge to Christians

We are the generation that has rendered RSVP-based party planning a futile endeavor.

Challenge to Christians.

We cannot completely ignore this effort, to the extent that it is directed at the progress of humanity. Of course, churches cannot mandate this, but small groups and Sunday School classes are where growth, formation and relationships happen.

Responding to the Professor's Challenge to Christianity

When small groups are done well, this void is filled. We find strength and encouragement from others who are dealing with the same problems and challenges in life. This reminds us that the church must be ready to witness to the lordship of Christ by cooperating with people of goodwill of all religious and non-religious groups who are genuinely concerned to seek better ways of living and working.

Challenge to Christians.

Did God keep His promises to the ancient Israelites concerning the Holy Land according to Joshua 21: 43-45, 1 Kings 8: 56, Nehemiah 9: 7-8? America is in dire need of another Great Awakening as was found in the days of John Wesley and George Whitefield. Christ calls us to missional living out in the world. By calling religion an ideology, Marx implies that it provides a transcendent escape for the victims of the class struggle and thus deadens their revolutionary passion for changing their existing order.

Changes and Challenges

From a philosophical perspective this is an insulting oversimplification, but recall, I am not concerned with the philosopher, but rather, with the broad culture that feeds on the regurgitated remains of her meal. Luke 19:27 I have come to bring fire on the earth, and how I wish it were already kindled! Let us begin by stating that communism and Christianity are at the bottom incompatible.

Changes and Challenges

This means that religion must arise from the actual life experiences of people and not be dogmatically imposed upon them.
