## Regional Development Policy

Significant progress has been made in the development of national capacities to collect, analyze, and use urban data for monitoring progress in the implementation of the urban SDGs. While the general domains of liveability were similar in the Bangkok and the Australian contexts, the specific indicators and measures for housing differed. Kobe: Hidden cities: unmasking and overcoming health inequities in urban settings; 2010.

## What is the meaning of urban liveability for a city in a low

Specifically, variables were compiled which denote the comparative need and opportunity of counties and regions to pursue selected economic development strategies while including aspects of resource endowment, land production capacity, environmental impact and risk.

## Cities in the World: A New Perspective on Urbanisation

This project was executed in six stages Fig. Targets specify the goals, and indicators represent the metrics by which the world aims to track whether these targets are achieved. Paper presented at the EDA Regional Conference, Milwaukee, Oct.
