### Thos. Moser

Just as intended, the original layer chair has mutated into several different versions, including: in the shape of mountain peaks in , a in and a in.

### Home

Additionally, with COVID-19, many people were forced to work from home which caused demand to skyrocket even further when they looked to create home offices. We what to hear about your builds! The intrusion of digitalization has led to these changes in the industry. Prototype and test ideas to rapidly find effective solutions.

### 36 Examples of High

Her work with Exygy includes content creation, campaign execution, event management, and digital marketing development. Outside of work, Lucy is continuously immersing herself with new experiences through new classes, learning nights, and world travels. Ana Bel has worked in agile product development for 10 years, and has helped to create and grow a diverse range of digital products.

### Hardware & Software Solutions for Furniture Manufacturers

With many brick and mortar stores closed, furniture companies also face the challenge of eCommerce. By doing so, business operations will surge and improve in manufacturing businesses. Roshen is a Partner at Exygy with deep experience in leadership, change management, product, and digital innovation.

### Exygy

Michael combines a diverse set of skills to launch transformative products for our partners.

### Open CNC Furniture

She supports the Marketing and Business Development team at Exygy through putting together our tech for good newsletter, and numerous other

special projects. For generating AM, objects from 3D models need to be assembled and meanwhile, subtractive technology is avoided.
