### Benjamin Franklin

In 1718, at age 12, he was apprenticed to his older brother James, a Boston printer. They may be constrained to using just what space is available and suitable on their own property, and perhaps not even be able to aggregate their energy use across properties to find the most suitable solar site for serving municipal-wide needs.

### Self

Your personal information will not be disclosed to anyone and will be kept confidential to the fullest extent possible allowed by law. In a world increasingly awash with data, it is shocking how little is known about some people and some parts of our environment. Please share suggestions of additions to undatarevolution@gmail.

### USHMC Home

Filesize: 68.107 MB

Executive Summary In 2012, ILSR published that projected, by 2021, 10% of electricity in the U.

## **Online Services**

While the use of new technologies has exploded everywhere in the last ten years, the costs are still prohibitive for many.

## **HUD**

The aggregation program gives the city the power to choose the energy supply on behalf of its residents and small businesses. No one should be invisible.

## **Data Revolution Report**

The drop in data availability after 2010 demonstrates the extent of the time lags that persist between collection and release of data. The USHMC website contains all the national, regional, state, metropolitan, and local data and analysis in one location. Data that can be re-used at different scales, and combined with other data, can better reflect the complex and dynamic interactions between people and the planet.
