

Molecular biology of cancer - mechanisms, targets, and therapeutics

Oxford University Press - Molecular Biology of Cancer: Mechanisms, Targets, and Therapeutics

Description: -

-
Montréal (Québec) -- Histoire
Authors, Austrian -- 20th century -- Biography.
Spiel, Hilde.
Psychoanalysis
Heart -- Diseases -- Research.
Neoplasms -- therapy.
Neoplasms -- genetics.
Cell Transformation, Neoplastic -- genetics.
Antineoplastic Agents -- therapeutic use.
Neoplasms -- etiology.
Cancer cells.
Cancer -- Molecular aspects. Molecular biology of cancer -
mechanisms, targets, and therapeutics
-Molecular biology of cancer - mechanisms, targets, and therapeutics
Notes: Includes bibliographical references and index.
This edition was published in 2008

Filesize: 60.66 MB

The book also nicely pulls in current therapeutic approaches with the molecular lesions that are responsible for the generation of cancer.

Molecular Biology of Cancer: Mechanisms, Targets, and Therapeutics

This distinctive text provides a single concise source of information for scientists and clinicians in this rapidly developing field. Here she used a technique called biolistics, using a 'gene gun' to shoot gold bullets coated with DNA to introduce genes into the regenerating limbs of live newts. Animal models of cancer, Jos Jonkers and Anton Berns.

Molecular Biology of Cancer

Author: Publisher: ISBN: CORNELL:31924108270509 Category: Cancer Page: View: 836 Categories: Cancer b every population is composed of cells , which have varying susceptibilities to therapeutic agents , including small numbers of resistant organisms genetically resistant and therapy results in the.

Molecular Biology of Cancer: Mechanisms, Targets, and Therapeutics / Edition 4 by Lauren Pecorino

Molecular Biology of Cancer: Mechanisms, Targets, and Therapeutics offers an accessible, engaging, and optimistic account of cancer biology for undergraduate and graduate students. The book's engaging writing-style and well thought out structure welcomes anyone with an interest in

studying cancer in thorough, interesting detail.

Molecular Biology of Cancer : Mechanisms, Targets, and Therapeutics by Lauren Pecorino (2016, Trade Paperback) for sale online

Will you have the range of clinical skills to care for people with cancer? Since 1996, Lauren has been a member of academic staff at the University of Greenwich, where she developed her interest in teaching Cancer Biology. The immunology of cancer, Peter C. .
