After graduating from college, she volunteered for a leprosy relief agency in India. The book covers the stories of small pox, leprosy, plague, tuberculosis, malaria, cholera and AIDS. As someone who didn't know much about these diseases before reading this book, I felt like I got a very thorough and fascinating picture on each one, as well as how they shaped parts of history and humanity.

Invisible Enemies: Stories of Infectious Disease

Bubonic Plague: Impossible to eradicate because it afflicts many different species. She dedicated the book to him. I found this book absolutely fascinating! You can do it while doing another thing at residence or also in your office.
