Noted also for his many spirited anti-nuclear protests and for his campaign against western involvement in the Vietnam War, Russell remained a prominent public figure until his death at the age of 97. In Wittgenstein's theory, an atomic complex is a layered proposition subsuming many atomic propositions, each representing its own state of affairs.

Logical and Philosophical Papers, 1909

According to Russell, the atomic complex is a product of human thought and ideation that combines the various atomic facts in a logical manner. Keywords Categories PhilPapers logo by and. UH 1944 The Value of Free Thought Girard, KS: Haldeman-Julius Publications Repr.
