Flooding Hazards/Risks Near Eugene

Tuffaceous siltstone of the Spencer Formation underlies BellfountainCellars, southwest of Corvallis.

Life Like it's a Oregon

Beyond Willamette, the farther south or inland you go, grapes other than Pinot Noir come to the fore.

Stories — Tualatin Valley Tales

Genetic studies of the DNA of the grape varieties produced a surprise when researchers discovered that Cabernet Sauvignon, the premier variety in Bordeaux and Napa Valley, is a wild cross between Cabernet Franc and Sauvignon Blanc. It runs from the Columbia River in Portland south through Salem to the Calapooya Mountains outside Eugene.
