## Disintegration scenarios in the European Union: A case study of Eastern European economies

China had not begun to use coal on a large scale until around 1900, giving Europe a huge lead on modern energy production. China had a larger population than Europe throughout the Common Era.

## Economic crisis and health inequalities: evidence from the European Union

Spatial and spatio-temporal models with R-INLA. The stylized fact that the fraction of workers who are college graduates appears to increase more in US cities where the initial share is larger has attracted significant attention. It was designed to be independent, representing the Community interest, but was composed of national representatives two from each of the larger states, one from the smaller states.

## Disintegration scenarios in the European Union: A case study of Eastern European economies

The European Community and the Crises of the 1960s.

## Refugee crisis: The divergence between the European Union and the Visegrad Group

So, even though the crisis started in 2008, we observe an impact two years later, in 2010.

## Review: [Untitled] on JSTOR

Third, as in any Bayesian analysis, the choice of the prior may have a considerable impact on the results. Nevertheless, two years later the accession treaties were signed so that Denmark, Ireland and the UK effective 1 January 1973.
