The five or six pages in which Lady Russell recounts, probably especially for the benefit of Rachel, her method of personal spiritual watch-care, has great value as a religious document, for she was not alone in her way of seeking salvation, in her heart-searchings, in her dependence on the external means of grace, in her sedulous striving after perfection. I with some of my school-mates joined together, and built a booth in a swamp, in a very retired spot, for a place of prayer.

In aristocracies, on the contrary, workmen always do all they can; and when they stop, it is because they have reached the limit of their attainments. Commit a crime, and the earth is made of glass.

The Unique and Its Property

My congregation, though small, is increasing, and I have reason to believe that the attachment which the people manifest is real. Unfortunately the audiences of that -age required an intermixture of comic scenes, even in the most serious dramas; and Ford's genius was the very reverse of comic. The translation of the Scriptures is by many supposed to have strongly and beneficially influenced the language of this age, but Barrington attributes and in our opinion justly a much greater power of purifying and fixing the idiom to the publication of the statutes in English.

The Spectator vol. 3

For it's remote causes we must go a little back. Acetous ought to be banished human Society, because he raises his Mirth upon giving Pain to the Person upon whom he is pleasant.

Furthermore, if the principle is this, that only the cause should rule the human being, namely, the cause of morality, the cause of legality, etc. A turbulent and boisterous Shipman appears next, who is described with minute detail.

The Unique and Its Property

He seems to have been the victim of a scepticism which rather gave scope to his unhappy feelings and his perverted sensibility, than encouraged him in loose and merry libertinism. This change, as we have specified above, was not the effect of the Norman invasion, for hardly any new accession of French words is perceptible in it for at least a hundred years from this time: it may be remarked that some few French words had crept in before this period, and also a considerable Latinising tendency may be remarked; but the changes of which we are speaking are rather of form than of matter, and are generally referable to one or other of the various causes which have been assigned a few pages back in the clear and emphatic words of Hallam.
