Sobra sa 140,000 nakaparehistro sa probinsiya

It was an extremely hot night and with three charcoal retorts for melting the cement adding to the heat, it must have been intolerable inside the airless cave of the inner shrine, but for about an hour and a half Bhagavan sat there telling the workmen what to do.

Sri Vidya Havan

Life is indeed blessed if only to experience those divine moments.

Sri Vidya Havan

At the time of the Kumbhabhishekam, on the penultimate night before the sacred water was poured over the images, he personally superintended the installation in the inner shrine. This even breathing pattern is both soothing for the mind and body.

Sri Vidya Havan

At night, when no one was about he would walk round and round the construction consecrating it. ■■■■■■

Yoga: Sama Vritti Pranayama

Notice the length, the sensations in the body and how the breath is flowing.

The visual element consists of 60 small black squares arranged in three horizontal rows. The top row contains 20 squares, the middle row contains 20 squares, and the bottom row contains 20 squares. They are evenly spaced and aligned horizontally across all three rows.
