Highlights in the History of the Army Nurse Corps: Chronology

Jeanne Hoppe was the Chief Nurse on Guam.

London Metropolitan Archives Collection Catalogue

The first nursing studies included those on decubitus ulcer care, oral hygiene, body temperature readings, and use of a plastic isolator for operating in a sterile environment. Colonel Scheffner thus became the first man in the Army Nurse Corps to serve in the grade of colonel. An RN who also holds a current ARNP certificate may satisfy the continuing education requirement for both licenses by completing the proper continuing education for an RN or may satisfy up to fifty percent of the continuing education requirement by completing continuing medical education coursework equivalent to the contact hours required by these rules.

History of Nursing Education in the United States

Patient care was performed by soldiers detailed from the companies. Mar 1962 The first contingent of ten Army nurses arrived in the Republic of Vietnam. The DOD directive also instructed the various military medical services to institute programs to train and utilize more practical nurses and other nonprofessional nursing service personnel in staffing for patient care.
