## Role of the Private Sector in Agricultural Development: hearings

The lack of knowledge about GM crops among both scientists and community members in Nigeria has led to the perception that agricultural biotechnology is risky.

## The Regional Institute

Where governments still do fund extension, the nature of the policy being promoted and the government commitment to invest in that policy has changed. If the government goes where private markets fear to tread, it needs to do so cautiously and with considerable safeguards.

## The Role Of Government

Ferry RL, Singh BB: Cowpea genetics: a review of the recent literature. There are three specific goals of this study: 1 describe effective trust-building practices in agbiotech projects, 2 describe the challenges to trust-building in successful and unsuccessful agbiotech PPPs, and 3 determine what makes these practices effective or ineffective through the identification of barriers to trust and trust-enhancing practices. Regarding following up on processes, he does provide this to ensure that those people selected by the communities are doing the work that they were selected to do.

## Kyrgyz Republic : Agricultural Policy Update, Volume 2. Main Report

Since these changes, the research institutes along with other government departments and government-funded organisations have been investigating different frameworks to compensate for the loss of this infrastructure and skill set for achieving policy goals with public-good outcomes in the rural sector.

## Privatization of Agribusiness Input Markets

Recent trends in broader collaboration across institutions, across disciplines, and between the public and private sectors suggest that the stage is set for the major advances in agricultural systems science that are needed for the next generation of models, databases, knowledge products and decision support systems. DLS 2012 Annual Report on Livestock, Division of Livestock Statistics, Ministry of Fisheries and Livestock, Farmgate, Dhaka, Bangladesh.
