On the other hand, has a concrete definition. We expect that you will understand our compulsion in these books.

Rusyn is the name given to the ethnic group which lived along the entire mountain range, thus Carpatho-Rusyns, or Rusyns for short. After the repeated refusal of these authors to provide RS for their OR, I can only conclude that a Ukrainian nationalist POV is being put forward and being supported by OR. Perhaps we should refer to these people as Martians? To start with, it is true that the present title is unambiguous and natural.

I oppose maintaining this title and it should be changed to something more specific to disambiguate the article. I say this because of four reasons: 1 Initially, this article has said Galicia is in Central Europe for ten years. No further edits should be made to this discussion.

**Talk:Galicia (Eastern Europe)/Archive 3**

There is no source cited on this point to discuss. We also see the need to claim that most of these Ruthenians would presently be regarded as Ukrainians, without discussion of why that confusion might remain in the post-communist world, or how we might travel back in time to know this.
