They had three children together: writer and food critic , electronics reviewer, angling and motoring journalist Adam Rayner and events manager Amanda Rayner.

The Holistic Development of a Child During the Early Years

Examples of identified ideas included providing carers with up-to-date weaning advice, and suggestions of healthy snacks and ways to increase physical activity level in informal care. This is especially true for books. However, both stakeholder groups recognised that a potential challenge with workshops is that people would not attend.

It is non-threatening and the environment surrounding play is engaging. Participants identified that a way of achieving this could be via a brief intervention, centred on a leaflet, targeted to carers with the aim of preventing obesity in children in informal care. Not only do carers have a role in practical support they also play a part in emotionally supporting the parents.
