Stream power Another important index for describing the erosive capacity of streams is stream power.

Forest Hydrology An Introduction to Water and Forests

. In physical therapy, patients can move weak parts of their bodies without contending with the strong force of gravity if they exercise in a buoyant medium such as water. .

Forest Hydrology An Introduction to Water and Forests

While it is acknowledged there may be more than one source of arsenic-contamination in Bangladesh, the size and extent of the problem seems to be pointing more to a geological origin as the most important. For example, in the Allegheny and Appalachian Mountains, where abandoned oil and gas wells are more numerous and older, problems may be greater than in other regions of the country.
