Over 36,000 farms use more than 20 percent of land to produce a wide variety of agricultural products, such as leading commodities dairy and milk.

## Catalog Record: A history of agriculture in the state of New...

Inmates were grouped together until 1869 when it was decided to form separate divisions; one for the younger boys and one for the older boys. The institution operated under a system of contract labor whereby the inmates did the work for outside companies such as buggy whip manufacturers and furniture makers and the earnings of the inmates went towards the cost of the institution.
