

# Measurement of the muonic branching ratio of the [tau] lepton using the OPAL detector at LEP

University of Birmingham - pdgLive

Description: -

-Measurement of the muonic branching ratio of the [tau] lepton using the OPAL detector at LEP

-Measurement of the muonic branching ratio of the [tau] lepton using the OPAL detector at LEP

Notes: Thesis (Ph.D) - University of Birmingham, School of Physics and Space Research, Faculty of Science, 1997.

This edition was published in 1996

## Measurements of branching ratios of tau

C 53 1992 73--77 A u.

[hep

Angular correlations and distributions for searches of CP violation in top quark production and decay. Recent results on the tau lifetime and the leptonic branching ratios are summarized with special care on various lifetime measurement techniques developed in the LEP experiments.
