In the event that human remains are encountered, you should contact the police in the first instance.

## Eroding Archaeology at the Coast: How a Global Problem is being Managed in Scotland, with Examples from the Western Isles

Additionally, the National Park Service has a series of publications regarding the evaluation of particular cultural resources, including archaeological sites, historic mining properties, and cemeteries see Appendix A. Testing of positive radials is not necessary if site boundaries have been adequately defined through other methods.

## The SeArch Project: Towards an Assessment Methodology and Sustainable Management Policy for the Archaeological Heritage of the North Sea in Belgium

For a site evaluation, a report should be produced.

## Guidelines for Phase I, II, and III Archaeological Investigations and Technical Report Preparation

In Advances in Archaeological Method and Theory, Volume 6, edited by M. In some cases, especially those employing a sampling strategy in earlier phases such as identification or evaluation, it is possible to estimate parameters of certain classes of data in a fairly rigorous statistical manner.

## The SeArch Project: Towards an Assessment Methodology and Sustainable Management Policy for the Archaeological Heritage of the North Sea in Belgium

Finally, if the evidence is ambiguous, the reconstruction can be used to direct investigative techniques such as coring see below to test specific locations for the presence or absence of predicted deposits. Prehistoric Sites, Rural Settings 3. Incomplete forms will be returned for revision.

**Preliminary Archaeological Reconnaissance and Evaluation With Recommendations For Cultural Resource Management, Lillian Eccher Project Parcel, APN # 189**

Each feature must be mapped in planview and photographed. The methods used depend upon the topographic setting, the size of the project area, and consultation with WVSHPO staff.

**Sites of Special Scientific Interest (SSSIs)**

All of this work should be carried out under the direct supervision of a qualified project director.

**Derek Hall**

Chesler, Olga editor 1982 New Jersey's Archaeological Resources from the Paleo-Indian Period to the Present: A Review of Research Problems and Survey Priorities. Published in Medieval Ceramics Volume 33 The major monastic orders had a significant influence on the landscape of Scotland. This applies equally to wetland and submerged areas.
