### Virginia Woolf (Author of Mrs. Dalloway)

Leaska has edited the extracted portions and published them as *The Pargiters: The Novel-Essay Portion of The Years 1977*, which also includes the earlier version of the 1880 section of the novel. There was a line of approach to Virginia Woolf around themes of childhood sexual abuse, around themes of the treatment of madness in her lifetime. Even though this one is not widely acclaimed, through this novel you get an insight into a distinct aspect of the society which needs to be explored.

### Top 10 Books by Virginia Woolf

The novel ends unresolved, but on a note of suspenseful menace.

### 4. MAJOR NOVELS OF VIRGINIA WOOLF

In this essay, Woolf delves into the implications of gender, and claims that without money and a room of their own, women are not able to let their creativity and genius run free. Sir Leslie Stephen, literary critic and editor of the *Dictionary of National Biography*, who although he did not believe in formally educating girls, made his voluminous library available to his precocious daughter Virginia. Already, however, many of her later concerns are largely emerging.

### All Virginia Woolf Books: Facts and Bibliography

It started as a hobby, to print fine small editions of literary works.

### Top 10 Books by Virginia Woolf

This mostly happens in the current world. Then, we move on to a very crucial period during her writing, where the seeds for greatness were sown, for later on to be reaped.
