A Public Health Framework to Improve Population Health Through Health Care and Community Clinical Linkages: The ASTHO/CDC Heart Disease and Stroke Prevention Learning Collaborative

ASTHO and CDC developed a learning collaborative, defined as a group of public health leaders and partners who have a common interest in a subject area that collaborates to achieve sustainable change and improvement. In late 1995 and throughout 1996, HL7 has also dedicated resources to the acceleration of its version 3.

Comparative Effectiveness Research, Genomics

Each subcommittee will be researching standards already in existence to determine if they could be applicable to dentistry. These early discussions and the lack of studies in the literature were the seeds to my PhD dissertation, an examination of the association of nurse staffing variables, including nurse continuity, on the development of hospital-acquired pressure ulcers, using HANDS as the data source to operationalize my study variables.
