### Treaty of Versailles

The state of things is quite different when vital questions are at issue, or when the opponent demands concession, but will guarantee none, and is clearly bent on humiliating the other party. The extrasocial, the supersocial, struggle which guides the external development of societies, nations, and races, is war. We do not at the bottom of our hearts shrink from such a conflict, but we look towards it with a certain calm confidence, and are inwardly resolved never to let ourselves be degraded to an inferior position without striking a blow.

### Bernhardi

Still more often, perhaps, it is the need to live which brings down even natures of a higher mould into the universal struggle for existence and enjoyment.

### Germany and the Next War Literature review Example

Many Poles are firmly established in the heart of Westphalia. We are thus incurring an obligation for the future, from which we cannot shrink.

### Germany and the Next War by Friedrich von Bernhardi

The following chapter pleads for ample provision for war, which the socialist parties and pacifists are hindering by their constant opposition and propaganda. POWLES AUTHORIZED EDITION NEW YORK LONGMANS, GREEN, AND CO.

### Germany and the Next War, Bernhardi

In the GERMANY'S DEVELOPMENT 63 Seven Years' War Prussia broke away from Catholic Aus- tria and the Empire, and confronted France and Russia as an independent Protestant State. But, undis- turbed by such human theories and the change of times, war has again and again marched from country to coun- try with the clash of arms, and has proved its destructive as well as creative and purifying power.

### Germany and the Next War on Apple Books

We must not aim at the impossible. The political questions thus raised intimately concern all international relations, and should be thoroughly weighed. It was manifest that war with Napoleon could not permanently be avoided.

### **Germany and the Next War**

They confer victory because the elements of progress are latent in them. A systematic explanation of the universe is quite impossible from the human standpoint.
