PhD Thesis, University of Bordeaux I, France. Family SORICIDAE Fischer von Waldheim, 1814 Subfamily ALLOSORICINAE Fejfar, 1966 Genus PAENELIMNOECUS Baudelot, 1972 Paenelimnoecus pannonicus Kormos, 1934 Material.

### Valley of the Smallest: The Life Story of a Shrew by Aileen Fisher HC EX

Further studies are needed to resolve this interesting problem. Differences in population characteristics between the two corridors are discussed including: sex ratio, weights, seasonal variation and age structure. The more I read the more I understand how little I know.

### Study of small mammal populations within two Barn owl corridors at Folly Farm

More details on the morphology of N.

### Ezekiel and the Valley Of Dry Bones

Bar represents the percentage of captures made within available traps at each different vegetation height, in both corridors.

### Amazing Facts about Shrews

During the breeding season, males are often noted as having increased activity and larger ranges. It could have increased in size with geological age and the roots of its I3 could have united and become single-rooted as in Recent E. Erinaceidae, Talpa minor and T.

### Ken Curtis

In 1954, Stanford created the Honors Cooperative Program to allow full-time employees of the companies to pursue graduate degrees from the University on a part-time basis.
