Dynasties in 1271—1633 significantly restored and rebuilt the canal and altered its route to supply their capital. The clan had resided in the south for eight generations when 531—591 was born. The city of grew to be a major hub, later becoming the capital of the 960—1279.

Grand Canal (China)

Although the Tang and Song dynasty international seaports—the greatest being and , respectively—and maritime foreign trade brought merchants great fortune, it was the Grand Canal within China that spurred the greatest amount of economic activity and commercial profit. The canal is 239 kilometers 149 mi long. Completed by about 300 BCE, it is the longest and one of the most difficult texts surviving from pre-imperial times.
